

## Call for offers for the management of ETAs in SharePoint

EOTA is the European Organisation of Technical Assessment Bodies for construction products. We create the framework for the European Technical Assessment (ETA) of construction products to ensure consistent product performance information throughout Europe. The EOTA network is the only solution for manufacturers of innovative or non-standard construction products to bring their products to European market with CE marking.

EOTA is seeking a company to relaunch and automatise its ETA management tool in SharePoint.

### Project goals

- Responsive process tool to manage the 3 phases of the ETA management: Self-registration, Consultation and Issued under our EOTA Portal (Azure platform).

### Deliverables

- Fixed economic offer for phase 1: ETA Self-registration. Management of the ETA registration by our members following the request of a manufacturer.
- Economic estimation for phase 2: Consultation of ETAs. Once drafted the ETA, the Responsible TAB will upload the document in a cloud. TABs designated by the relevant PAC will receive a daily notification by email confirming the number of ETAs uploaded for this PAC. The system will automatically trigger the data in SharePoint.
- Economic estimation for phase 3: ETAs issued. Final issued ETAs will be uploaded to the cloud by the RTAB. All TABs will receive a daily notification by email confirming the number of ETAs uploaded for this PAC. The system will automatically trigger the data in SharePoint so ETAs will be sent to the website through the API.
- Selection criteria: Technical proposal and economic offer per phase.

### Additional information

- ETAs page: <https://www.eota.eu/pages/etassessments/default.aspx>
- The content of the phases can be improved in order to automatise the whole process for TABs and EOTA Secretariat.
- The development and implementation of each phase can affect the continuation of the subsequent phase.

### Timeline

- 3 months/phase

### Deadline for the offer

- October 5<sup>th</sup>, 2023 (12:00h).

Please submit your offer, detailing the price for each deliverable. Any clarification request may be sent to [finance@eota.eu](mailto:finance@eota.eu)
